

# Chalk2Me

## KEEPING MODERN GROUPS IN TOUCH

*The University of Colorado at Boulders Web Development club has just had another packed meeting and the organizers want to recap the meeting for the members that couldn't attend and send out info on the night's speaker to the rest of the group. The organizers use Chalk2Me's technology to individually target both of these groups using Chalk2Me's built in message targeting features – **no more redundant messages and with Chalk2Me's messaging you can rest assured that they'll be received as fast and efficiently as possible!***

## RECEIVE MESSAGES THROUGH

- Phone Call
- Text Message
- Email
- Facebook
- AOL Instant Messenger
- Yahoo Messenger
- Windows Live Messenger

“This is fantastic. It solves a need that all teachers have to deal with!”  
*Helayne Jones, President, Boulder Valley Board of Education*
